My New Friend in İstanbul

Linked to: Student's Book p. 65 – Mine's email to her grandma about her new friend Melis

BEFORE YOU READ Do you sometimes make new friends on holiday? What are they like?

From: Elif Yıldız
To: Maya Clarke
Subject: Greetings from İstanbul – and a new friend!

Hi Maya,

How are you? Is it sunny in Antalya? Here in İstanbul it's cold and rainy, so I'm wearing two jumpers in Grandma's flat!

I've got some news. Grandma's neighbour, Mrs Aksoy, has got a granddaughter. Her name is Defne, she's thirteen and she lives in the flat upstairs. Mum says she is a **lovely** girl, and she's right! Every afternoon, Mum and Grandma drink tea with Mrs Aksoy, so Defne and I draw and listen to music upstairs.

Defne is **taller** than me, but she's shorter than Emre (everyone is shorter than Emre!). She has got long **wavy** brown hair, big dark eyes and round glasses. She always wears a silver **bracelet** with tiny stars on it.

On the first day, Defne was very quiet. She **seemed** a bit **serious**, too. But now she is one of the funniest people I know! She is also very **polite** and **helpful**. She explains Mustafa's maths homework more **simply** than his maths book.

Her style is very different from mine. I love jeans and old **trainers**, but Defne prefers **fancy** clothes: colourful dresses, **tights** with stars and the biggest **earrings** in Kadıköy. I want to draw her for my blog.

And now the best part: Defne can play the drums! She has got a drum **kit** in her bedroom, and she is the most **energetic** drummer in the world. She wants to visit Antalya in the summer, so the three of us can start a band! Kerem wants to sing with us, but his voice is worse than his robot's voice. (Shh! Don't tell him!)

We need a name for our band. Have you got any ideas? Write back soon and say hi to your parents.

Lots of love, Elif

Your Amazing Body

Linked to: Student's Book p. 66 – Ready to Explore: sports, clothes and personality (Science link: the human body)

BEFORE YOU READ Which body parts do you use when you run, swim or dance?

> Elif's Notebook · My science exhibition notes
> by Elif Yıldız

Last week, Mum, Dad, Emre, Mustafa and I were at a science exhibition about the human body in İstanbul. It was **brilliant**! Here are my favourite facts from my notebook.

Super skin: Your **skin** is the largest organ of your body. (An organ is a body part with a special job, like the heart.) Skin protects your body from dirt and germs. It also keeps you cool: on a hot day you sweat, and this cools your body down.

Hard-working heart: Your **heart** is a strong muscle, and it is about the size of your fist. It sends blood around your body and beats about 100,000 times a day. When you run or dance, it beats even faster.

Busy bones: An adult has got 206 bones. A baby has got more bones than an adult, because some bones join together as children grow. The longest and strongest bone is in your **leg**. The smallest bone is inside your ear, and it is about the size of a grain of rice!

Bendy joints: Your **knees** and **ankles** are joints – places where bones meet. They help your legs bend and move. That's why volleyball players often wear knee pads with their sports **kit**.

Strong stomach: Your **stomach** is like a strong bag. It uses special juices to break your food into smaller pieces. Mustafa's stomach makes funny noises before lunch – that's normal when you are hungry!

Your **back** has got a long line of small bones down the middle, called the spine. Carry your **backpack** on both shoulders – it's better for your back than one shoulder.

Physical activity makes your heart, bones and muscles stronger. So eat well, sleep well and move every day. Your body is **simply** the most amazing machine in the world!
